# Your Community

Upskill your  
community  
groups with  
iClick2Learn

As a Council, you're in partnership with your community. It's a relationship that requires transparency, resources, information and trust.

A good place to live requires a good community that's engaged and empowered. That's why your community volunteers, groups, and not-for-profits deserve the very best in training, to survive and thrive.

iClick2Learn provides exactly that. High quality training that can be customised for your community. We'll help you meet the objectives of your **Community Strategic Plan** and provide essential tools and training.

This will help your community groups and volunteers, become more self-sufficient and legally compliant.

**Upskilling your community builds a healthy, sustainable and resilient community.**

## Training

iClick2Learn delivers sector-specific training solutions for NFP's, community organisations and social enterprises. Delivered face to face or online.

## We can help you with:

- Sector relevant training
- Face to face, online, or blended
- Facilitation of community consultation
- Specialised and experienced trainers
- Practical learning that your community can put into practice straight away.

# Upskill Your Community

iClick2Learn has over 60 workshops for you to choose from. All workshops can be modified to suit your particular needs and be delivered face to face or online.

Topics include:

- Governance
- Grant writing
- Marketing
- Financial management
- Volunteer management
- Presentation skills
- Raising funds
- Programs, projects, and services
- Leadership and human resources
- Accessibility and diversity

*"Training and development shouldn't be tired, boring or stagnant. Providing your community with self-directed learning options means they're empowered to go into the community with confidence, up-to-date knowledge, and the capacity to create positive impact."*

*- Natalie*

**"We'll train  
your  
volunteers and  
committees  
and they'll  
strengthen  
their  
organisations"**

Natalie Bramble  
CEO iClick2Learn

24/7  
Library

# Learning Library

Our 24/7 learning library hosts 300+ learning resources specific to the community sector for boards and committees, staff and volunteers.

The library provides on-demand sector and role relevant learning delivered through online courses, videos, live and recorded webinars, articles and templates.

Training your people online maximises your resources by improving the return on investment by:

- Reducing attendance costs
- Scaling to any number of participants
- Lowering cost per participant
- Reducing staff workloads
- Saving time with an automated system

**The learning  
library delivers  
training that's  
smart and  
effective**

# Custom Learning Hub

Your own branded learning library with over 300+ learning resources and access to on-going member webinars. No-one needs to miss out! Give your community members access to on-demand learning when they need it.

A customised hub will be branded with your logo, images, introduction text, all library resources from iClick2Learn, plus, you can have us add the resources you've developed for your community.

A customised hub is a great way to centralise and share training and resources with your community organisations. This reduces training costs and can improve grant application success.

Example branded library:  
[www.iclick2learn.com.au/frrr-learning-hub](http://www.iclick2learn.com.au/frrr-learning-hub)

**Your brand,  
your logo, and  
personalised  
message with  
our learning  
resources.**

## FRRR

Foundation for Rural  
Regional Renewal

EXAMPLE

### Foundation for Rural & Regional Renewal Learning Hub

FRRR and our partners know that communities that are supported to build their capacity are better able to respond to the impacts of natural disasters. That's why we have developed the Disaster Resilient: Future Ready program (DR:FR).

This program takes a practical, inclusive approach, working with communities to understand the skills and resources needed, and any barriers that may hinder communities from being better prepared for the next natural disaster. The program focuses on local people identifying the things they believe will better prepare them in times of natural disaster.

This hub will house DR:FR and other capacity-building resources that may be of use to participating communities. New content will be added regularly.

For more information on the DR:FR program, please visit the [DR:FR website here](#).
